TERRIFIC LOSS INFLICTED BY U. S. TROOPS

German Dead Piled Three Deep in Some Places—300 Prisoners Taken

WITH THE AMERICAN ARMY in Picardy, June 7.—(By The Associated Press.)—As the result of the two attacks by the Americans against the enemy in the second battle northwest of Chauteau Thierry 300 prisoners were captured and the Americans extended their own line over a front of about six miles to a depth of nearly 2½ miles.

While the losses of the Americans necessarily have been heavy owing to the nature of the fighting the German dead is piled three deep in places.

The German prisoners taken by the Americans, many of whom were mere boys, had only been in the line for two days. Some of them wore the white bands of the Prussian guard.

Private Carl B. Mills of Visalia, Cal., was in the first wave of Americans to go over the top in the Veuilly wood to smoke out the Germans remaining there. He said that after his unit obtained its objective many of the men went back and filled the ranks of their advancing comrades. All worked like clock word dhe said. Thefavorite slogan was "Egch Man get a German: Don't Let a German Get You."

Many instances are related of the heroism of the Red Cross workers in braving shells in No Man's Land and gathering in or aiding wounded.

As far as is known no Americans have been made prisoner by the Germans.

Private John B. Flocken of Olney, Ill., one of the first men to reach Torcy, said today:

"I never saw such a wonderful spirit. Not one of our fellows hesitated in the fact of the rain of the machine gun fire which it seemed impossible to get thru. Every German seemed to have a machine gun. They fought like wild cats, but the Americans were too much for them."

KING GEORGE TO ATTEND GAME

London, June 7.—This year for the first time in Anglo-American history, the king of England is going to take part in an American Fourth of July celebration. On July 4, King George has promised to attend a baseball game at Chelsea between teams representing the United States army and navy.

In 1913 King George was at Chelsea when the New York Giants and the Chicago White Sox played on their trip around the world.

GERMAN ADVANCE HELD AT ALL POINTS

Unable to Execute More than Minor Attacks Which are Invariably Repulsed.

With the French Army in France, June 7.—By the Associated Press—The Germans it is generally believed are now held at every point of their recent advance. They seem unable to execute more than minor attacks, which are invariably repulsed, whereas the counter-attacks which the allies are making are proving notably successful, nearly always bringing about an improvement in positions.

Thruout the day time yesterday except in the sector northwest of Chateau Thiery where the French and Americans made their brilliant incursion into the enemy lines and on the Champiat-Bligny line, southwest of Rheims, where the French and British cooperated in opposing a German attack there was little activity along the battle line by the infantry. As for the artillery, the enemy has increased his in volume during the last few days, but he confined his attentions chiefly to bombing the rear of the allied positions. In return the allied cannon left the enemy very little peace, constant showers of shells being thrown in.

SHERMAN ADVOCATES UNLIMITED DEBATE

Discussion of Senate Rules on Debate Would Limit Debate on Bill to One Hour and Thirty Minutes.

Washington, June 7.—Speaking in support of the proposal made by Senator Borah of Idaho to have the senate rules amended to permit discussion of treaties in open sessions, Senator Fall of New Mexico today denounced the proposed treaty between the United States and Columbia as an example of what might come from closed diplomacy saying the treaty would make the United States an ally of Columbia against practically every Latin-American country. An amendment adopted by Senator Cummins of Iowa, Republican, would increase the time limit for debate on a bill to an hour and thirty minutes. Senator Underwood and other Democratic leaders are prepared to accept this as a compromise by the Republicans.

Senator Sherman of Illinois, Republican, opposed any change of rules, arguing that unlimited debate had caused various reforms.

FABER JOINS NAVY

Great Lakes, Ill., June 7.—Urban "Red" Faber, who pitched the Chicago Americans to three out of five victories over New York in the World's series last fall enlisted at the Great Lakes Naval Station here today. Faber said he does not intend to become a "dry land sailor" but will request an early order for sea service. Ben Dyer, utility infielder with the Detroit Americans, also enlisted today and may enter the officers' school here.

Ebb and Flow of Battle as Told in Official War Statements Issued By Belligerent Nations.

AMERICAN

WASHINGTON, June 7.—Further advances by the American and French troops near Shateau Thierry and the infliction of severe losses upon the enemy was reported in tonight's communique from General Pership. An American raid in Picardy in which prisoners were taken, also was announced.

The communique follows:

"West and northwest of Chateau Thierry we made minor readjustments of our lines involving several advances in the course of which we inflicted severe losses and took prisoners, among them being one officer and 25 unwounded men. Our advance was made in conjunction with French troops on our left.

"Artillery on both sides was active at points held by our troops in Picardy on the Marne front, in the Weevre and in Lorraine.

"In Picardy we took prisoners in the course of a raid."

ITALIAN

ROME, June 7.—The official statement issued by the Italian war department today says:

"On the front of Mont diVal Bella one of our assaulting parties broke into the enemy trenches capturing more than fifty prisoners, six machine guns and a large quantity of material. French detachments took 21 prisoners in a surprise attack in the Sisemol lines. Enemy patrols were driven back in the Vallarsa Valley, the Posina Valley on the slopes of Col Caprille and at Spinonia Copo Sile. Five tons of bombs were dropped on enemy aviation camps on the Venetian plain, the Mezo Corona railway station and on marching columns on the Querfeltne road. At Asiago two enemy advances failed."

GERMAN

BERLIN, June 7.—via London.—The German official communication issued today says that north of the Aisne and northwest of Chateau Thierry the Germans repulsed attacks by allied forces.

The text of the communication follows:

"On the battle field the fighting activity remained restricted to local actions. North of the Aisne and northwest of Chateau Thierry local attacks by the enemy were repulsed. Southwest of Circy were captured enemy lines on the banks of the Andre river. We took 300 prisoners. Artillery duels have been revived at intervals and there has been lively reconnoitering activity. During an advance into the French lines west of Kemmel we captured two officers and 50 men."

BRITISH

LONDON, June 7.—The British official communication concerning aviation operations says:

"Our airmen took advantage of the fine weather on the British front Thursday to accomplish much useful work in reconnaissance and photography. Together with our observation balloons they ranged our guns on many hostile batteries. In air fighting fourteen German machines were destroyed and eight others were driven down out of control. Several observation balloons were destroyed by our airmen and another hostile airplane was forced to descend by our anti-aircraft fire.

"During the day we dropped 28 tons of bombs and a further 11 tons in the course of the following night. Among the targets attacked were Valenciinnes, Le Cateau, Busigny and the St. Quentin railway station.

"We lost one machine during the day."

FRENCH

PARIS, June 7.—The French and American troops operating against the Germans northwest of Chateau Thierry during Friday's fighting made additional gains of ground and captured the villages of Veuilly-la-Poterie and Bouresches, according to the French communication issued this evening.

BUMPER WHEAT CROP FORCASTED BY JUNE REPORT

Department of Agriculture Gives Indication of Size of This Year's Output

(By Associated Press)

WASHINGTON, June 7.—A bumper wheat crop this year, which before harvest may develop into a production of a billion bushels was forecast today by the department of agriculture in its June crop report giving the first indication of the size of this year's spring wheat output.

Basing its estimate on June 1 conditions the department forecast a total wheat production of 931,000,000 bushels which would place this year's harvest as the second largest in the history of the country. Experts of the government aiming for a billion-bushel crop to help in feeding the armies and civilion population of the allies pointed to the development of the record crop of 1915 to substantiate their hopes for a crop equal to that.

In June, 1915 a total wheat production of 950,000,000 bushels was forecast and the quantity gradually crept upward until the final figures for the year showed the crop to be 1,05,800,000 bushels.

The acreage sown to spring wheat this year is larger by 2,000,000 acres than ever sown before and 21.5 per cent larger than last year aggregating 22,409,000 acres. The condition of the crop on June 1 was 95.2 per cent of a normal, or 1.5 per cent better than the ten year average. A production of 344,000,000 bushels was forecast, that is 111,000,000 bushels more than harvested last year and only about 7,000,000 bushels less than the record spring wheat harvest of 1915.

Winter wheat, growing on the second largest acreage ever planted, showed a condition three per cent better than the ten year average with 83.8 per cent of a normal. A production of 587,000,000 bushels was forecast, which is 15,000,000 bushels more than forecast form conditions existing May 1. Such a crop would be the third in size grown in this country. The oat crop also promises to be of record proportions. On an acreage 2.1 per cent larger than last year when the record crop—1,587,000,000 bushels—was grown, June 1 conditions warrant a forecast of 1,500,000 bushels. Only last year's and the crop of 1915 exceeded that quantity.

Rye production will be a record, the forecast being 81,000,000 bushels which is slightly less than was forecast in May. Last year's crop was 60,100,000 bushels, which was a record.

UTILITIES COMMISSION ACTS IN MANY CASES

Proposed Rates Suspended in Many Cases—Deny Petition.

Springfield, Ill., June 7.—Action was taken by the public utilities commission today in the following cases:

Suspended to October 12 proposed rates for water service at the Freeport Water company.

Suspended to September 16 proposed rates for general gas service of the Alton Gas and Electric company.

Suspended to October 5, proposed rates for primary electric power at East Peoria, Averyville and Bartonville of the Central Illinois Light company.

WESTERN UNION CO. SHARPLY CRITICIZED

Refuses to Abide by Sessions of National War Labor Board.

St. Paul, Minn., June 7.—Sharp criticism of officials of the Western Union Telegraph company for their alleged refusal to abide by the decisions of national war labor board and protestations of labors united support of the government's war policy were voiced late today by officials of the American Federation of Labor, speaking at pre-convention meetings. According to President Samuel Gompers and Secretary Frank Morrison the action of the telegraph officials is in direct violation of the purpose of the board and has a demoralizing effect upon the morale of the working people.

"This probably will result in President Wilson commandeering the Western Union Telegraph company and enactment of legislation by congress for taking over all telegraph and telephone companies during the war," Secretary Morrison said.

Reiterating labor's pledge to support the war needs of the government, Mr. Gompers said:

"Never in the history of the Universe has there been a time and circumstance where representatives of the masses of labor have been in a position of right and justice as now."

The primary purpose of the United States in entering the war was to maintain self-determination, freedom and justice the speaker declared. In a like manner he added, while America is fighting autocracy and militarism abroad organized labor proposes to maintain freedom and Democracy at home and said:

"Come what may President Wilson need not fear division in America for the men of labor, whether in peace or war stand as a unit behind him as the leader of democracy of the world."

Altho reports from the Western front at times are disheartening, Mr. Gomper said America is ready to make the supreme sacrifice to crush Prussian militarism.

IOWA RIVER LEVEES ON VERGE OF COLLAPSE

BURLINGTON, Iowa, June 7.—Reports from Louisa county to The Hawkeye tonight say the Iowa river is rising rapidly and that altho a large force of men have been fighting all afternoon in an effort to save the levee, indications are tonight that this is impossible and it is feared that hundreds of acres of some of Iowa's most valuable farm land will be inundated. All livestock on pasture in the lowlands between the threatened levee and the Mississippi is being moved to higher ground. The observer reports a stage of fourteen feet above low water mark at 7 p. m. The Mississippi is also rising rapidly at Burlington, the stage being ten feet, two and a half inches above low water mark, a rise of seventeen inches in two days.

HUTCHISON BREAKS RECORD.

Chicago, June 7.—Jock Hutchinson, Glen View professional, today broke the course record at the North Shore Gulf club with a total of 69 in practicing for the Red Cross tournament to be played there on Sunday. Hutchinson's score was one better than the record set recently by Chick Evans and four under par for the 913 links.

The patriotic open champion scored two eagles, two under par on the 455 yard first and the 450 15th making each in three.

NORWEGIAN STEAMER SUNK OFF CAPE MAY

Torpedoed by Submarine Wednesday—Crew Rescued.

Washington, June 7.—Sinking of the Norwegian Steamship Vinland by a German submarine 65 miles off the Virginia Capes at six p. m., Wednesday, June 5 was announced tonight by the navy department. The crew was rescued and landed today at Cape May, N. J.

Nineteen survivors of the Norwegian Steamer Vinland, sunk this morning by a German submarine, 46 miles off Cape May, were landed here this afternoon by a torpedo boat destroyer.

The survivors all members of the Vinland's crew, were taken to the hospital at Wissahicken Barracks. The destroyer that picked them up was a new boat and was on her trial trip.

The Vinland was a schooner-rigged steamer owned by O. & A. Irgens and company of Bergen, and commanded by Captain Bratland. She was built in Bergen in 1906 with a gross tonnage of 1143 and a length of 228 feet. She was listed as having arrived at an American Atlantic port on May 11.

The Vinland was sent down nine hours after the British Steamer Harpathian was torpedoed thirty five miles farther from the Virginia coast. Until word of her sinking came from Cape May today nothing had been heard of the operations of the enemy raiders since the landing of the Harpathian's crew yesterday. No details were given in the brief despatch to the department. This statement was issued:

"The navy department is informed that the Norwegian Steamer Vinland 1,913 tons was bombed and sunk by a submarine about 65 miles off the coast of Virginia at 6 p. m., on June 5. The crew was landed at Cape May."

NOT TO WITHDRAW IRISH CONSCRIPTION

DUBLIN, June, 7.—A warning to Ireland that Lord French's recruiting proclamation does not mean the withdrawal of conscription, was made in a statement issued last night by the anti-conscription conference after a four hour session at the mansion house. The lord mayor of Dublin presided, and John Dillon, Joseph Devlin and other Nationalist leaders were present.

The lord mayor of Dublin, it was announced, will proceed to the United States when the attempt to conscript Ireland is renewed. The imprisonment of the Sinn Feiners without trial is condemned and the Irish military administration denounced.

The statement says nothing of the attitude of the conference toward the recruiting campaign.

FIVE CITIZENS INDICTED FOR CONSPIRACY

The Investigation Discloses Plot to Commit Treason and Conspiracy

(By The Associated Press)

NEW YORK(June 7.—Five American citizens and two subjects of the German empirfe, one of them a woman are named as fellow conspirators in two indictments returned by a federal grand jury here today. Investigators declared their operations the most sensational undertaken by German intelligence agents since the war began. The indictments allege conspiracy to commit treason and conspiracy to commit espionage. The assembling and transmission of information relative to America's prosecution of the war, the destruction of American piers, docks and troop transports with fire bombs, destruction of quick silver mines in this country to hamper the manufacture of munitions; assisting Germany in landing an armed expedition in Ireland; fomentation of a revolt against British rule in Ireland; raising of funds in this country with which to finance these operations and destruction of munition factories and mines in Great Britain are charged as ramifications of the intrigue.

The wording of the indictments comprising thirty pages intimates that the conspiracy may be even broader in scope. This is suggested by a paragraph in the treason indictment which alleges that in July, last year, one of the defendants sent a cablegram to Olten, Switzerland.

The principals named in the alleged plots are:

Jeremiah A. O'Leary, prominent American Sinn Feiner, now a fugitive from justice on charges of espionage act violation for distribution of alleged anti-draft literature in the magazine Bull of which he was formerly editor.

"Madame" Maria K. de Victoria, alias Baroness von Kretschmann, a blone haired German woman of striking appearance and about 40 years of age.

Carl Rodiger, who claims Swiss citizenship, but who is alleged to have come to this country from Germany under a fraudulent passport.

Willard J. Robinson of New York, aged 30, and under suspended sentence for seditious soap box oratory here in behalf of Sinn Fein interests.

John T. Ryan, a Buffalo, N. Y., attorney, alleged to have been active in spreading Sinn Fein propaganda in this country.

Albert Paul Fricke, a Mount Vernon, N. Y. toy manufacturer, whose affairs are now being administered by alien property custodian Palmer.

Emil Kipper, prominently identifie with Sinn Fein activities in New York city.

Rudolf Binder and Hugo Schweitzer, both of whom died last year are the two other "citizen defendants" named in the indictments. The seven individuals listed are charged with complicity in both consporacies.

"Madame" de Victoria, Rodiger, Robinson, Fricke and Kipper pleaded "not guilty" to both indictments before Judge Augustus N. Hand and were remanded to the Tombs to await trial late today.

O'Leary, now wanted on three charges and Ryan have not been apprehended.

NURSES WANTED FOR OVER SEA DUTY

NEW YORK, June 7.—Surgeon General Rupert Blue of the public health service, has asked the American Red Cross in its drive to recruit nurses for overseas duty also to enroll nurses for sanitary work in the extra cantonment zones at home, according to a statement issued here at Red Cross headquarters. Nurses are moreover needed in "our trachoma and pellagra work" General Blue notified the Red Cross.

WOULD DEPORT ALIENS.

Washington, June 7.—All alien anarchists in the United States would be rounded up for immediate deportation under a bill favorably reported to the house today by the immigration committee. It was introduced at the request of the secretaries of war, navy and labor and the department of justice. Present laws forbid their deportation if they have been here for five years.

O'LEARY INDICTED ON CHARGE OF TREASON

Sinn Fein Sympathizer Indicted on Federal Investigation—Is Fugitive from Justice.

New York, June 7.—Federal investigation into the activities of Jeremiah O'Leary, known to the government as a Sinn Fein sympathizer, resulted in his indictment today on the charge of treason. O'Leary fled a month ago.

With him were indicted four other American citizens and two Germans, one being Karl Rodiger a German naval officer, the other Mme. Marie K. de Victorica, who was taken into custody in April. The woman at the time was charged with having spent money here to support Sinn Fein newspapers and inducing young Sinn Fein sympathizers in this country to enlist in the British navy for the purpose of putting bombs on British war shps. Rodiger was arrested early in May and was described at the time as Germany's master spy in this country. One of the Americans indicted was John T. Ryan, a Buffola lawyer was named altho not indicted in the German plot to blow up the Welland Canal nearly three years ago.

I. W. W. PLOTS BARED BY GOVERNMENT AENTS

Plans to Burn Buildings and Crops and Poison Livestock Disclosed.

Chicago, June 7.—How government agents prevented carrying out of an I. W. W. plot to burn buildings and crops and poison livestock by thousands in South Dakota last summer was disclosed in testimony today at the trial of members of the organization before Federal Judge Landis. Phosphorus was to be used in destroying property by fire and cyanide of potassium was the poison chosen with which to kill cattle.

Government officials intercepted packages of the chemicals in the mails at Mill Bank, S. D., and arrested Stanley Brown, secretary o the I. W. W. branch at Aberdeen and Martin Gunderson, another member of the organization who later were convicted on a conspiracy charge and sentenced to a term in federal prison. Bottles of the phosphorus and the potassium with which the leaders proposed to use in its South Dakota campaign of sabotage were produced in Judge Landis' court today and offered in evidence. Government attorneys stated there was enough cyanide of potassium in the bottle to kill thousands of horses and cattle.

R. D. Deacon, postoffice inspector and half a dozen other government officials testified to the details of the plot at today's session of the trial.

AMENDMENTS TO EXTEND DRAFT AGE OFFERED

Washington, June 7.—Amendments to extend the army draft law to all men between the ages of 18 and 45 were offered by Senators Cummins of Iowa, and France of aMryland, today when the senate military committee began consideration of the twelve billion dollars army appropriation bill passed by the house. The committee decided to hold hearins on the bill and Secretary Baker will appear next Monday.

BARBERS IN LIMELIGHT.

Chicago, June 7.—Barbers were in the limelight today when the president, secretary and treasurer of the International Journeyman Barbers' Union were indicted with four other men in connection with a window-breaking campaign against non-union shops and the master barbers announced higher prices. Effective June 10 hair cuts will cost 40 cents in Chicago and shaves 20 cents.

STRAUSE FOUND GUILTY SECOND DEGREE MURD

Peoria Banker Gi Twenty-five Yea Sentence By Jury

(By The Associated Press)

PEORIA, Ill., June 7.—E A. Strause, former presiden the State Trust & Savings B of Peoria, was found guilty 9:14 o'clock tonight of murde Berne M. Mead. His punishm was fixed by the jury which cided his fate at 25 years in penitentiary. As the circuit c read the verdict the banker's fell, and a ghastly pallor sp over it. Then he raised his h squared his shoulders and g straight ahead.

The trial of Strause was of the most important cases l courts have ever known. B principals to the Sunday trag of December 23, 1917, when hind locked doors of the ba Strause fired two shots into Me head, were prominent citizens Peoria. Their homes faced e other on one of the most exclu residence streets in the city they had been associated in banking business for nearly se years.

Strause pleaded self-defense justification for the killing. testified that Mead attacked h with a revolver which he secu from one of the cages in the ba and that to protect his own he was forced to slay the cash after a physical struggle.

The story of the killing vanced by the state was that M was in a position to buy Straus stock in the bank and that af Strause refused to sell M threatened to vote him out of holdings at the meeting of board of directors set for the n month. Strause, the state claim then shot his cashier to preve his being put out of the bank. T case has taken nearly five wee to try. Four weeks were requir to fill the jury box and duri that time over 400 talesmen w examined touching their co petency to serve. Judge Robe J. Grier of Monmouth, Ill., w called in by the local circ judges as a special trial jud in the case to prevent any pos ble favoritism which had be charged by the state.

REUTER'S VIEW OF PICARDY SITUATIO

German Paper Concedes Supe iority of Americans

London, June 7—Reuter's Lim ited correspondent with th American army in Picardy send the following despatch concernin the fighting northwest of Cha teau Thierry in which the Amer cans were victorious:

"The American force operatin northwest of Chauteau Thierry ap pears to have been involved in much larger affair than was first believed. This force no has been engaged for three day in serious and determined fight ing in which our allies held th upper hand thruout.

"According to the statements o prisoners it appears that a singl American unit forced three Ger man dicvisions into action makin a serviceable example of the firs two and taking ground from th third in a bitter struggle lasting a whole night. With this las named division the American were still employed when the cor respondent left the field.

War Summary

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

There has been no let up in the offensive of the American and French troops against the Germans in the region northwest of Chateau Thiery, where in the past two days severe defeats have been inflicted on the enemy and American marines have won great praise for their valiant fighting.

Battling shoulder to shoulder over a front of six miles from Vinly, which lies just to the northwest of Veilly-la-Poterie to Bouresches, the Americans and French have captured the towns of Veuilly-la-Poterie and Bouresches and also made progress all along the front. Previously Torcy had fallen into the hands of the Americans. Nowhere on this battle line have the Germans been able to stay the efforts of the allied troops, altho they have fought with great tenacity. The marines everywhere have declined to take a backward step, going forward against the enemy, even when he had superiority in numbers. Close pressed the marines have given the Germans a taste of cold steel, even in the face of machine gun fire; surrounded they have fought theis way thru the gray-coated lines with their bayonets.

From all accounts there has been no part of the game of modern warfare in which the men from overseas have not excelled the enemy. The losses to the enemy thus far as declared to have been extremely heavy and the terrain they have lost is considered of high strategic value inasmuch as it is on that part of the battle front thru which the Germans had hoped to crush their way forward and attain an open road to Paris. The casualties of the enemy were particularly severe since the street fighting in Bouresches, where the Americans pushed him back step b ystep.

The plans of the American command did not include the capture of Torcy, but when the marines reached the objectives assigned to them their ardor for battle could not be restrained and they kept on until the village was in their hands. Twenty five marines drove out two hundred Germans from Torcy.

Hard held on the other sectors from Soissons to Chateau Thierry the Germans, after very heavy bombardments have essayed attacks on the Marne from near Rheims. These attacks were illstarred and the enemy had to accept defeat. A French attack at Bligny resulted in that village falling into their hands in its entirety.

On the remainder of the battle fronts there is still slight activity aside from bombardments and patrol encounters.

They say it is a crime for any n to be idle in this country w. It is a true statement and situation demands action like t taken in Canada. There the provides a penalty of a fine imprisonment at hard labor every able-bodied Canadian o refuses to work. This aplies all between the ages of 16 and with the natural result that erybody in Canada is busy.

ONEER "NEIGHBORING" RETURN.

Among the other "Drives" now progress is that for the enlistent of Red Cross nurses. The ghest officials in medical departent of the army have emphasizthe need for the immediate entment of 25,000 nurses. The mpaign is under way in this dict to acquaint all qualified rses with the real conditions d a patriotic response is being ade. The situation calls for some -operative effort on the part of e people, for they must necessarly relinquish many nurses from rivate work. The old time ethod of "neighboring" in days sickness must be revived and iendly intimacies which have ot been known since pioneer days ust again be established. People re going to learn to help themselves and to help each other as they have not known how before.

INSURANCE RATES VS. WATER.

In considering the water supply question for Jacksonville, did it ever occur to you that a few months ago by action of the board of insurance underwriters this city was placed in the fourth classification? This had the result of immediately raising insurance rates and was a direct result of the fact that Jacksonville has an insufficient water supply.

If the bond issue is approved at the election Tuesday, June 18, it will be possible to provide an ample supply of water, with the almost certain result of restoring Jacksonville to its former classification. Interest on the bonded indebtedness will be smaller than the additional cost which the people of Jacksonville aree now paying because of the insufficient water slupply. The man or woman who votes in favor of the water extension is simply voting for his own interest and for the interest of the city as a whole.

THE CONSTITUTIONAL CONVENTION.

It is evident that a well organized compaign is to be waged in acquainting the people with the desirability of a constitutional convention for Illinois. Governor Lowden is taking the leadership in this campaign and is ably seconded by some of the strongest men in the state.

Under the terms of a resolution adopted by the 50th General Assembly, the question of assembling a constitutional convention to revise, alter or amead the Constitution of Illinois will be submitted to the voters at the general election to be held on November 5, 1918. A publication just issued by the Legislative Reference Bureau has been prepared with a view of assisting the people, who, on November fifth of this year, must decide whether or not a constitutional convention shall be assembled in this state.

DISGRACE OF IDLENESS.

If there are any idle men in this community, the fact is a reflection not only upon the idle men themselves, but upon the entire community. To be idle in these days of scarcity of labor and scarcity of food, is a disgrace. To permit idlers to live in a self-respecting town is no less a disgrace. There is some way to force every able-bodied man to follow some useful occupation. If he is not self-supporting, he should be punished as a vagabond. If he is pursuing an unlawful calling, or one morally wrong though permitted by law, he should be given no patronage by patriotic citizens. If he belongs to the class comomnly known as the idle rich, he should be forced by social ostracism to find some place where he can make himself personally useful to the town and the nation. Every idle, able-bodied man in this town is a standing disgrace to the community as a whole.

THE DAY OF SACRIFICE.

About 700 Morgan county men are already in the army or navy service and 400 more are to go this month. To many people this total number seems nothing short of apalling, but like everything else, figures on army quotas are great or small only by comparison. When these 400 have gone the 35,000 people in this county will be represented by 1100 in the ranks.

Yet there are hundreds of cities in Canada, in England and in France where not one single man of army service age can be now found. Yes, 400 is a great quota. But it is just as well for the people to face the real situation and understand that the sacrifices they are now called upon to make are small by comparison with sacrifices already made by the allied nations, and small, no doubt, by comparison with the sacrifices yet in store for the people of the United States.

THE PRESIDENT CALLS FOR VOLUNTEERS.

President Wilson has issued a call for volunteers.

He is not asking for fighters. America has the men to put into the field just as fast as they can be trained, armed and equipped and ships found to transport them across the sea. It is not fighters he has to ask for.

It is for volunteers in the home line that he asks. Everyone, from the oldest man to the youngest child is eligible. There is no physical test, and there is no class 4 or class 5 for those he doesn't want now. Everyone should volunteer.

June 28 is the day set for the completion of the recruiting all over the United States. It is the army of thrift, of war savers, that is being recruited.

Appealing to "every man, woman and child to pledge themselves on or before June 28 to save constantly and buy War Savings Stamps as regularly as possible" the President asks that "there be none unenlisted on that day."

Illinois has had its Pledge Week. Thousands, yes hundreds of thousands, have enlisted, some who have pledged to do a little should have pledged to do a great deal more. Millions, however, have not pledged at all. They may not have been asked to do so. The recruiting agents may not have called on them. But this is no excuse.

The President now calls for volunteers. Don't wait until someone calls on you to ask you to invest in War Savings Stamps. It is your plain duty, and everyone's to go and hunt up the stamps if the stamps have not hunted you up. They will not be hard to find. They can be purchased at every postoffice and from every mail carrier in the state. There is scarcely a bank which does not handle them. Thousands on thousands of retail stores have them for sale. The stamps will be harder to dodge than they will be to find.

Only 25 counties out of the 102 in Illinois went "over the top" in the recent pledge week. A score or more of the counties did nothing at all. This may have been due to lack of organization, or to plans for a drive in some other way, but the fact remains that there are many counties in the state which are so far behind that unless the people heed the President's call for volunteers in this month of June it looks as tho Illinois must go down on the list of slacker states in the war savings campaign.

Organization of a complete canvas of the 6,000,000 and more people in Illinois is an immense task and the funds of the War Savings Committee have been limited. Now comes the call to the volunteers. If no pledge has been presented to you, sign one in your own mind and keep it. If you have signed formal pledge, double it if possible.

Illinois must continue to get pledges, and especially to sell War Savings Stamps in June. Invest all you can now in this, the world's best government security. On June 28 every resident of Illinois is called upon to purchase at least one of the $5 War Savings Stamps. As many as possible are asked to buy ten, twenty, a hundred or two hundred that day. Don't wait for some one to come around and ask you to buy. Volunteer in answer to the President's call.

Now is time to get summer clothing of Knoles.

MONUMENT CONTRACT HAS BEEN SIGNED

County Board Reaches Agreement with Crunnelle, Morrison & Walker—When Bond Has Been Approved Work Can Begin.

Another step has been taken in the matter of the soldiers' monument and this time it is a long one and it is earnestly hoped it will soon lead to a complete understanding between the county board and the contractors, Crunnelle, Morrison & Walker of Chicago. For some weeks the county board has been unable to agree with the contractors in the matter of a bond and contract. Yesterday they came to an understanding and contract has been signed as presented below. The contractors have thirty days in which to secure the necessary bond and this they say they will be able to accomplish. In that event they will probably have the foundation for the monument in place this fall.

This will be a consummation devoutly to be wished as the matter has hung fire so long those interested have begun to get discouraged. The old soldiers will be very glad to see the monument of their choice erected in the place of their choice. Some have suggested Nichols park as a place but the law says the monument must be erected within the city limits.

The following is the contract. The reason for the delay in signing the contract was the fact that the board could not approve the bond of $4,000 as at first suggested by the contractors:

—AGREEMENT—

This Agreement for the construction and erection of a Soldiers Monument in the Center of Central Park in the City of Jacksonville, County of Morgan and State of Illinois made and entered into this seventh day of June, in the year of Our Lord, One Thousand Nine Hundred and Eighteen, by and between Leonard Crunnelle, James R. M. Morrison and Frank Chase Walker, partners, doing business under the firm name and style of Crunnelle, Morrison and Walker, of the city of Chicago, State of Illinois, hereinafter called Sculptor or party of the first part, and the County of Morgan, in the State of Illinois by its legal representatives, the County Commissioners, hereinafter called the owner or party of the second part—

Witnesseth,—That the parties hereto in consideration of the payments hereinafter provided to be made, and the faithful fulfillment of the promises and agreements hereinafter contained and of the construction of said Monument as set out in the plans and specifications herein referred to, mutually agree as follows:

Article 1—That the party of the first part shall under the supervision and to the approval of the County Commissioners complete said Monument, provide and pay for all materials and perform and pay for all work thereon for the sum of Thirty-one Thousand Dollars ($31,000.00). Subject to additions and deductions and as provided in the Contract, and as shown in the accompanying plans and specifications, which plans and specifications are identified by the signature of the parties hereto thereon and which plans and specifications are hereby made a part of this contract as if set out at length herein.

Article 2—That the party of the first part shall complete the several portions and the whole of the work comprehended in this contract at the time hereinafter stated, to-wit:—

To Complete by May 30, 1919.

The said Monument as set out in the plans and specifications, to be completed in every particular on and by May 30, 1919, without some cause hereinafter specified for the extension of this contract.

It is hereby agreed by and between the parties hereto that the sum to be paid by the party of the second part shall be $31,000.00, and no more, and that that sum shall be paid by the party of the second part to the party of the first part in current funds as follows: Provided that no part thereof shall be paid until a good and sufficient bond in the sum of $31,000.00 shall be given by the party of the first part for the faithful performance of this Contract and after said bond is approved by the parties of the second part. Said bond to be furnished on or before July Seventh, 1918

And if said bond is not so furnished by the party of the first part to the party of the second part guaranteeing and indemnifying the party of the second part for so constructing said monument, then this contract is void without action or notice to the party of the first part by the party of the second part.

When Payments are Due.

It is further agreed by and between the parties that the first payment shall be Seven Thousand Dollars ($7,000.00) to be made at the time of the execution of this Contract and on party of the first part submitting satisfactory bond and the approval of same by parties of the second part.

The second payment shall be Seven Thousand Dollars ($7,000), which shall be paid by the party of the second part to the party of the first part when the working models for sculpture are approved by the party of the second part, after consultation by them with party or parties by them selected to advise with them in the premises.

The third payment, which shall be Seven Thousand Dollars ($7,000.00) shall be made by the party of the second part to the party of the first part upon the completion of the foundation of said monument, after the same have been accepted and approved by the County Commissioners after consulting with the superintendent, architect or other person employed by the party of the second part for the purpose of examination and advice.

The fourth payment shall be Five Thousand Dollars ($5,000.00) which shall be paid by the party of the second part to the party of the first part upon the delivery of all granite at the site of the Monument in Jacksonville, Illinois and when the same is approved by the County Commissioners after consultation with the superintendent or supervising architect or other person authorized by the County Commissioners to advise them in the premises on proper showing of the payments, or release by the shipper of said Granite of the party of the second part for liability therefor.

Fifth and Final Payment.

The Fifth and final payment shall be Five Thousand Dollars ($5,000.00) which shall be paid within thirty days after the completion and acceptance and approval of the Monument by the party of the second part.

The said Final payment shall be made within thirty days after the completion in manner, form and time required by this Contract or the work included in this contract, but no payments whatever, or at any time shall be demanded or due, except upon the written certificate of the said superintendent, supervising architect or other person authorized by the County Commissioners to act in such capacity, which certificate must be to the effect that the work and material are in all respects equal to specifications and that such payments have become due, and such certificate shall in each instance be a condition precedent to the right to require any payment.

Article 3—It is further agreed that the Sculptor's work on said Monument shall be the personal work of Leonard Crunnelle, Midway Studio, Chicago, Illinois, and in case of his death or incapacity during the progress of the work, the completion shall be taken up by Lorado Taft, who is hereby made a party hereto, and who shall acquiesce in this contract by signing his name hereto or to some memoranda thereto in writing.

Furnish Necessary Data.

Article 4—The party of the first part shall upon request of the parties of the second part promptly furnish the party of the second part or its agents, employees, either Superintendent or Supervising Architect or other person having authority to act for the parties of the second part in the premises, such drawings, photographs or other necessary data of the intended work or inscription as may be required.

Article 5—If, at any time the party of the first part is wrongfully prevented by the party of the second part from proceeding with the work, then the party of the second part shall be liable for the damages, and shall pay such damages sustained by such wrongful conduct to the party of the first part.

Article 6—The party of the first part may copyright the complete work, and after terms of this contract have been fulfilled, and after the monument has been accepted and paid for, and the transaction is, in all particulars, completed, and all preliminary studies and all models of said Monument shall be the property of the said party of the first part; but it is understood and agreed that the Sculptor shall make no plastic reproductions of the work.

Article 7—It is further understood that wherever the term Supervising Architect, Superintendent or other person authorized by the County Commissioners to act is mentioned in this agreement or where the decision, judgment or discretion referred to as by the County Commissioners or other person by them authorized to act in the premises, or any action on the part such person authorized to act in that behalf is required, it is intended to be referred to such person or persons as may be designated by the County Commissioners of Morgan County ,and no other and that the County Commissioners will act thereon with reasonable promptness and discretion.

Article 8—The said parties for themselves, their heirs, executors, successors, administrators and assigns do hereby agree to the full performance of all the covenants in this contract contained.

In Witness Whereof, the parties to this contract have hereunto set their hands and seals this the day and year above written to this Contract, in duplicate, copy of which shall be considered for all purposes as an original.

ECLIPSE OF THE SUN AT 4 P. M. TODAY

Astronomers Prepared to Observe Phenomena at Various Stations Thruout Country—Line of Totality Will Be Fifty Miles Wide.

San Francisco, June 1—A great astral pencil, whose point is fifty miles in circumferance, is to draw a jet black line across the United States from Aberdeen, Wash., to Orlando, Fla., tomorrow afternoon.

While the marking is being made chickens are expected to go to roost and birds to nest. Street cars may run with their headlights aglare, and there will be a sudden strain on all lighting utilities. The great cosmic titan who will hold the pencil and mark the line will "get even" with Washington for stealing an hour of sunlight on that day, for he will take forty-seven minutes of that sunlight back again.

The point of that pencil, black as ebony, will represent an eclipse of the sun. The point will begin with the moon, and will drop in an exact cone to the earth where it will delete a considerable portion of the Pacific ocean and the states of Washington, Oregon, Utah, Colorado, Kansas, Arkansas, Mississippi, Alabama, Georgia and Florida, in about the same manner that a military censor deletes an objectionable line from a war correspondent despatch. The stock of the pencil will be represented by a nebulous space of infinity, millions of miles long, between the sun and the moon.

Many an astrological Christopher Columbus will be out "along the line" to discover a new world or two. The mythical plant Vulcan, said to hover near the sun may possibly be given a positive identity. The great solar force that makes Mercury shake with an astral ague as it spins around its orbit may be uncovered. A thousand theories may be proven or repudiated, chief of them being the theory of relativity, first suggested to Einstein, a German physicist.

The nubbin of this theory is that the light from stars beyond the sun is bent by the sun's gravity before it reaches the earth in about the same manner that a street car rail is bent around a slight curve. The eclipse is expected to prove whether such sun gravity can bend light or not.

The eclipse is expected to throw some light on the composition of the sun's spectrum, which, during the period of totality, glows with a greenish hue. What makes it green is the question the scientists are going to try to answer. Points of similarity and dissimilarity between the atmosphere of the sun and the earth are to be given close attention also.

The polarized light of the sun will also attract interest. Scientists at the University of California, near here, and elsewhere say that the light around the sun moves in regular waves like wireless air waves, instead of being a steady, even substance, as around the earth. The eclipse may explain this difference,

The coronal spectrum of the sun, according to Professor E. P. Lewis, department of physics, University of California, is made up of unknown elements. Professor Lewis is to study this coronal spectrum through a large quartz spectograph as a member of the Lick Observatory party at Goldendale, Wash. The spectograph, in the event of clear weather, is expected to reveal many new and startling facts concerning this corona and accompanying spectrum.

The war has had some effect on the plans for observing the phenomena, many of the scientists who observe such things now being engaged on preliminary study of the great German eclipse, which is due "somewhere in France" at an unnamed date.

Stations have been established, however, by the Lick observatory at Goldendale, the United States Naval observatory at Baker, Ore., the Yerkes and Mount Wilson observatories at Green River, Wyo., the Alleghany, Chamberlain and Yerkes observatories at Denver, the Drake University observatory at Matheson, Col., the Sproul observatory at Eads, Col., and the Smithsonian Astrophysical observatory at a point in Kansas.

These stations are all on the line to be drawn by the great astral pencil and are situated at all sorts of altitudes to get all possible effects.

The eclipse will begin at 7:29 in the morning at a point south of Japan and will end at the Bahama islands, east of Florida, at 7:29 in the evening, Greenwich time. The shadow will enter the United States at 2:55 in the afternoon, Pacific time, or 3:55 daylight saving time, and will leave at 5:41, Central standard time, or 6:41 daylight saving time.

The line of totality will be fifty miles wide and that of semi-totality 150 miles wide. The eclipse will be visible, however, in varying phases all over North and Central America and Japan and a great portion of China and Russia.

Before Copernicus discovered in the sixteenth century that the planets revolve about the sun, eclipses were a source of terror, scientists say. Arabian wise men happened on the theory of eclipses some time before, but kept the knowledge to themselves in order that they might strengthen their hold on the illiterate populace by utilizing the phenomena.

Followers of Copernicus were burned at the stake for their beliefs.

WORK, NOT WORDS, PROVE LOYALTY

Protestations of Love for the Dear Old Flag are not Going to Fool Anyone These Days.

In these days too many people are proclaiming their loyalty to the cause of their country in the great war.

Loyalty which needs to be proclaimed is at least questionable. The country doesn't need pledges of fealty; it does need pledges of funds—funds for bonds, for thrift stamps, for the Red Cross and for all good War causes.

America doesn't need words; it needs work. Anyone who is engaged in honest work—work which will help win the war, whether it is farming, making air ships, driving rivets, mining coal, or raising money for war needs—will never need go around telling how much he loves the dear old Stars and Stripes.

On the other hand, the one who isn't engaged in some loyal work, who isn't doing all he can to help his nation's cause, who doesn't buy bonds or Thrift Stamps, who declines to subscribe to the Red Cross and other war Charities, is not going to get his neighbors to put much dependence in his loyalty, no matter how red his face gets by the violence of his proclamations.

The war is too far advanced, America is too deeply concerned, the temper of the country is too earnest for mere declarations and protestations to pass current as the coin of loyalty.

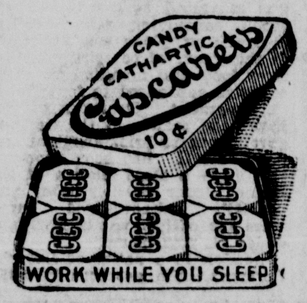

Loyalty is a thing which proves itself through deeds. His work will speak for anyone who is loyal; words will not whitewash anyone who isn't.

MISTREATMENT OF U. S. PRISONERS THREATENED

German Government Threatens Mistreatment Because of Improvement of Rintelen.

Washington, June 7.—The German government threatening mistreatment of Americans because of imprisonment of the bomb plotter Franz Rintelen, has been warned by the United States to remember that such a step will draw swift retaliatory action on the thousands of Germans in this country.

Germany's threat and the answer of the United States were disclosed today by the state department. In a note presented by the Swiss minister here, the Berlin foreign office proposed to exchange for Rintelen, Siegfred Paul London, a German-born naturalized American citizen serving ten years in prison in Germany for acting as a Russian spy. Notice was given that an answer to this proposal was awaited before putting into execution contemplated measures of reprisals against Americans in Germany because of the failure of previous efforts to relieve Rintelen.

Secretary Lansing replied with a terse communication refusing to consider the exchange and suggesting, that, while the United States does not acknowledge the principle of reprisals occasioning physical suffering it would be wise for Germany to consider that if it act upon that principle it inevitably will be understood to invite similar action upon the part of the United States.

Point was given to the secretary's suggestion by a statement issued by the war department tonight. It shows that 133 American soldiers have been located in German prison camps and 216 American civilians including merchant sailors, interned in Germany, while there are some 5,000 Germans interned in this country, including 1,310 prisoners of war. No mention was made of the fact that there are not more than a few hundred Americans all told in Germany, while there are hundreds of thousands of Germans in the United States who have been subjected only to the minor restrictions attending registration. Captain-Lieutenant Franz Rintelen as he is known in this country operated a san arch plotter and German agent before the United States entered the war. He was convicted at New York last year of conspiring to cause strikes in munition plans and February of this year, of conspiring to destroy food and munition on ships and was sentenced to four years imprisonment. Strenuous efforts have been made by the German government to bring about his release and it has been reported that he is a close relative of the kaiser, closer possibly than was officially acknowledged even when the officer was in Germany under his own name.

London is a native of Leipsig, Germany. He was born in 1852 and when twenty years old came to New York. He was naturalized May 23, 1887 in the court of common pleas, New York. Just when he went to Warsaw is not known here, but he was there in 1903 representing various American business firms and remained continuously until arrested. In 1915 was charged with inducing young men to enter the service of a Russian spy in Germany. In January 1916, he was to have been tried on an espionage charge but escaped the day before that for trial. He was rearrested in Warsaw on Sept. 27, 1917.

At his trial his defense was that he did not know the nature of the employment for which he directed three young men to the home of the spy. He was found guilty and sentenced to death on December 20, 1917, but on January 9, 1918 his sentence was commuted to ten years imprisonment. His citizenship is questioned by the state department because of his long expatriatism.

OLD TIMERS TO WRESTLE.

Cedar Rapids, Iowa, June 7.—"Dad" Clark, aged 55 years old of North Liberty, Iowa, an old time wrestler today mailed a challenge to "Farmer" Burns, aged 57 years of Omaha, former world's heavy-weight wrestling champion, for a match best two out of three falls to win. The two men first met on the mat thirty two years ago. Both are said to be in good physical condition. The challenge grew out of a statement made by "Farmer" Burns when he was in this city some time ago when he asserted he would meet any man within five years of his age at any time or place. Local promoters are endeavoring to get the match for this city.

50,000 PERSONS HOMELESS RESULT OF FIRE

Amsterdam, June 7.—Fifty thousand persons are homeless as the result of a fire at Stambul, the Mohammedan section of Constantinople, which devastated the whole eastern part of the Sultan Selim quarter, according to the Semi-Official Norddeutsche Allgemeine Zeitung of Berlin. Buildings on both sides of the Mosque in that district were destroyed but the Mosque was spared.

AMERICAN STEAMSHIP TORPEDOED.

New York, June 7.—The American Steamship Argonaut was torpedoed by a German submarine off the Scilly Islands on June 5, according to a cable message received here today by the Geer Steamship company.

The Argonaut was a freighter of 4634 tons gross register, and was formerly the German Steamship Albinglis.

GOVERNMENT VETERINARY ARRESTED

East St. Louis, Ill., June 7.—Dr. Ernest Schultz, 55 years old, government veterinary surgeon at the National Stock Yards here tonight was arrested on a charge of violating the espionage act. It is alleged he was offensive in refusing to subscribe to the Red Cross fund.

SEEKING FACTS ABOUT DISLOYALTY

Representatives of Military Department Visited Jacksonville Yesterday—Keeping an Eye on Conditions.

Friday Major C. W. Russell of the adjutant general's office in Springfield, with his two aides, Corporals Johnson and Overlander, came to Jacksonville to make investigation concerning any cases of disloyalty to the government. These officials have been visiting many cites and counties thruout the state, in some localities where there have been reports of pro-Germanism and in others where no such reports have been received.

Major Russell stated that the campaign of investigation had been inaugurated in accordance with the wishes of Governor Lowden so that the record of the state may be entirely clear of disloyalty charges. The work of the investigators has been quite fruitful in some of the southern counties of the state and action has been taken which will certainly line up the citizens in a right and patriotic way.

It should of course be understood that Major Russell and his aides here form only a part of the organization thruout the state which is conducting the investigation and quietly keeping in touch with the whole situation as related to any enemy sympathizers. It is understood that as the result of the invetigation which has been in progress here for some days, that Major Russell considers the conditions in this city and county as quite satisfactory. It is understood that the organization for keeping in touch with patriotic situation all over the state will be continued thru the period of the war. The organization might properly be termed a part of the secret service of the U. S.

LOOKING FOR "ENEMY" PROPERTY

Custodian Asks all Good Citizens to Help Him Find Holdings of Residents of German or Austria-Hungarian.

The Alien Property Custodian of the United States has appealed to the people of the country to aid in finding property owned by "enemies" or "allies of enemies." The appeal is addressed particularly to the State Council of Defense in Illinois, and to the local and county organizations of the State Council. When such property is found the Custodian will take charge of it.

An "enemy" in this particular sense means any person living in, or any corporation incorporated within either Germany or Austria-Hungary or any of the territory occupied by the armed forces of the Central Powers. "Ally of enemy" means any person living in, or corporation incorporated within any of the allies of the Central Powers—Turkey, Bulgaria, etc.

Under the Alien Property act the property need not be owned by a citizen of one of the enemy countries; it must be owned by a resident of an enemy country, who may be an American, British or French citizen. Likewise the property owned by Germans or Austro-Hungarians who live in America is not included, unless they are in the custody of the government—that is interned or on trial.

The purpose of the Alien Property act is to prevent wealth created in the United States from being used against the United States. Therefore, the Council of National Defense calls upon all good citizens and particularly upon all persons affiliated with any of the organizations of the State Council of Defense, to do a little private sleuthing. Each in his own community is asked to gather all the information he can about enemy-owned property, whether it is land or money or mortgages or stocks, or what not, and transmit that information to Walter S. Brewster, Chairman, the Counties Auxiliary, 120 W. Adams Street, Chicago. Mr. Brewster will forward it to the proper official of the National government.

TRIED TO STOP AUTOISTS

Automobile drivers on the Woodson road south of Jacksonville report that there have been two attempted holdups at a point about a mile south of the city limits. It is said that after nightfall at the point indicated two men had appeared in the roadway and signaled auto drivers to stop. In each instance the automobile drivers instead of stopping have applied the power and made their getaway.

THIRTEEN STILL MISSING

New York, June 7.—Eight passengers and five of the crew of the Steamship Carolina sunk last Sunday by a German submarine are still missing according to an announcement tonight by the New York and Porto Rico Steamship company owners of the vessel. The missing persons are not listed as dead nor will they be, it as stated, until hope of finding them has been abandoned.

RITELEN SOUGHT IN EXCHANGE OF PRISONERS

Leader of German Bomb Plotters in U. S. Desired by Germany.

New York, June 7.—Captain Franz von Rintelen, alias Hansen, alias Gasche, alias Gates, etc., leader of the German bomb plotters in the United States and for whom the German goverament government is trying to exchange an American prisoner of war, was said, when a captive in England three years ago, to be the Duke Adolph of Mecklenburg-Schwerin, a relative of the German emperor. At the time of his trial here there also were persistent reports that he bore a much closer relationship to the emperor but one which was not officially recognized.

Von Rintelen and ten other plotters were convicted here last February of attempting to blow up American ships and were sentenced to Alabama penitentiary for a year and a half and fined $2,000 each. The judge who committed them said life imprisonment or even death, would not be too severe in view of the gravity of their crime. on Rintelen was the financial head of the conspiracy which covered the entire United States.

The arch conspirator was originally sent to the United States to foment strikes in munition plants, it was said, before this country entered the war. It was his purpose to prevent the shipment of arms to the allies. Failing in this he was expected to cause American intervention in Mexico on the theory that the United States once embroiled with its southern neighbor would have need for all munitions of war.

RE-INVESTIGATION OF DRAFT CLASSIFICATION

All Lists to Be Investigated for Purposes of Increasing Number of Available Men for Military Service.

Washington, June 7—With the double purpose of increasing the number of men available for military service and of insuring fairer administraton of the selectve service law, Provost Marshal General Crowder today telegraphed governors of all states asking immediate re-investigation of the draft clasification lists, everywhere. Class one also exhausted in some localities by the repeated calls, contain 28.7 percent of all the registrants according to the national average but percentage in the 4,500 local exemption boad districts very most materially both up and down from the average figure

By "slacker marriages" and ungrounded claim of right to industrial or agricultural exemption, General Crowder believes some registrants have imposed upon the burdened local boards to escape service, while in other districts an application of the regulations has been perhaps stricter than is intended.

The governors and the appeal agents are asked to investigate and upon evidence to ask boards to reclassify men. Assistance of the public thru supplying information to the boards also is asked.. It was said today that with the gradual exhaustion of Class One, unskilled farm laborers whom the boards have been allowed to place at its bottom will have to go to cantonments. There wil be no change in this policy and the only relief it is declared will come from enforcement of the "work or fight" order generallly.

STETTINUS TO GO ABROAD

Washington, June 7—Assistant Secretary of War Stettinus may soon go abroad on an important mission in connection with the ordnance and ammunition supply of the American forces. Secretary Baker authorized the statement today that such assignment for Mr. Stettinus was under consideration.

Mr. Baker would not go into details as to the department's plans. His statement, however, was connected immediately with a report from London that a scheme for an allied cabinet on war supplies to establish unity and decision regarding raw materials has been approved by the British government.

BENNY KAUFF DRAFTED

New York, June 7.—The departure of Benny Kauff for army service will weaken the New York Nationals both offensively and defensively. The drafting of Kauff was not unexpected by the local club management, however, and plans are under consideration to strengthen the outfield. Kauff is the leading batter of the team at the present time, being fourth in the National League list with an average of .359 for thirty-five games. His fielding and throwing standard also are very high.

YELLOW PAINT ADMINISTERED

Sullivan, Ill., June 7.—Belts of yellow paint were found this morning on a local planing mill, a garage an two other business houses owned by members of the Harshmanite church, who because of their religious beliefs have refused to buy Liberty bonds, thrift stamps or help the Red Cross.

Federal authorities recently conducted an inquiry into the attitude off Harshmanites.

TO REDUCE COST OF FOOD TO CONSUMERS

Country Wide Movement to Compel Observance of Fair Price List.

Washington, June 7.—A country-wide move to reduce the cost of food to the consumer and standardize methods of compelling the observance by dealers of "fair price lists" was ordered today by Food Administrator Hoover. Lists will be published in every county, town and city and consumers will be asked to co-operate with officials in forcing merchants to bring their prices to a uniform level.

If this can be accomplished a statement issued by the food administration says the average buyer will not only be protected, but thepatriotic merchant who has followed the food administration's suggestions regarding prices will be protected against the unscrupulous dealer who has attempted to take advantage of the situation

NATIONAL WAR SAVINGS DAY COMING

Secretary McAdoo Picks June 28 for "Thrift" Drive—Illinois Far Behind its Quota.

Secretary of the Treasury McAdoo has named Friday, June 28, as National War Savings Day. In other words it is a day for buying War Savings stamps.

Illinois needs such a day. The state is far behind its quota. It is too far behind many close-by states in the purchase of Thrift Certificates.

Figures available at the headquarters of the War Savings Committee do not show the full extent of purchases, but they do make it clear that Illinois is lagging. Some counties are lagging unbelievably. By the last available figures Hardin and Pope counties shared the doubtful honors of being in the 101st place in the state—the last. Each county had subscribed but 1½ per cent of its quota, or but 30 cents per capita on a population basis. Knox and Gallatin counties had done but little better. They were tied for the 100th place with subscriptions of 40 cents per capita, or 2 per cent of their respective quotas.

Brown county upon last reports, was leading the procession with subscriptions of $12.00 per capita; Lawrence second with $10.20 per capita; Adams third with $8.90 per capita, and Randolph and White tied for fourth with $9.40 each per capita.

Pig counties have fallen down as well as little ones, for Cook was 52rd in the list with $2.20 per capita, and LaSalle was tied with her. Peoria was 86th with a per capita subscription of $1.20 and St Clair 58th with $2.00 even per capita

Since the tabulated figures were compiled many counties have come up, and Menard, which was 21st in the list then, has "gone over the top" and oversubscribed her quota by $4,000.

It is the hope of the War Savings Committee that now that the Red Cross drive is over, local committees will settle down to steady work, and that War Savings day will be ushered by all counties to cross the 100 per cent mark

EXEMPTION BOARD NEWS

Guy Wilson Bradford of Waverly was added to the list of registrants yesterday, having attained the age of twenty-one years since June 5, 1917. This young man did not register on Tuesday because he had enlisted in a special department of the University of Illinois and did not understand that he was subject to draft regulations.

Richard B. Filkin, 634 Sheridan street, also registered. Previous to the passage of the selective draft act he was in the service and had been discharged on account of dependent family. It was not his understanding that he was required to register until recently and this accounts for the fact that his name is just getting on the roll.

The local board has authority from the adjutant general to receive applications from men in deferred classifications to go with the contingent of 400 June 24. Several men who have deferred classification appeared before the board yesterday with the request that they be sent this month. The matter was taken up with the adjutant general and he has given his authority and approval of this matter. In fact, it is hoped that some of the men in classes 2 and 3 and 4 will express their desire to go to Camp Taylor this month.

Men in class 2 are listed as follows:

a. Married man with children or father of motherless children, where such wife or children or such motherless children are not mainly dependent upon his labor for support for the reason that there are other reasonably certain sources of adequate support (including earnings or possible earnings from the labor of the wife), available, and that the removal of the registrant will not deprive such dependents of support.

b. Married man, without children, whose wife, altho the registrant is engaged in a useful occupation, is not mainly dependent upon his labor for support, for the reason that the wife is skilled in some special class of work which she is physically able to perform and in which she is employed, or in which there is an immediate opening for her under conditions that will enable her to support herself decently and without suffering or hardship.

c. Necessary skilled farm laborer in necessary agricultural enterprise.

d. Necessary skilled industrial laborer in necessary industrial enterprise.

Men in class 3 are listed as:

a. Man with dependent children (not his own) but toward whom he stands in relation of parent.

b. Man with dependent aged or infirm parents.

c. Man with dependent helpless brothers or sisters.

d. County or municipal officer.

e. Highly trained fireman or policeman, at least 3 years in the service of a municipality.

f. Necessary customhouse clerk.

g. Necessary employee of United States in transmission of the mails.

h. Necessary artificer or workman in U. S. armory or arsenal.

i. Necessary employee in service of United States.

j. Necessary assistant, associate, or hired manager of necessary agricultural enterprise.

k. Necessary highly specialized technical or mechanical expert of necessary industrial enterprise.

l. Necessary assistant or associate manager of necessary industrial enterprise.

Men in deferred classification who make application to be sent into the service now must have the written consent of their dependents to this plan, as this will keep the records in such shape that the local board can take the desired action.

There were more than 100 callers at the office of the exemption board yesterday and the members were busy with investigations and explanations. In cases where the visitors sought to have class 1 men held back until later time the board had only one answer, that "This is your war and not ours. The government has issued orders for 400 men to be taken from class 1 and the men must go forward on the date and in the manner indicated. This is not a question of our deciding. It is not a question as to what we want to do or would like to do. It is what we must do."

A number of farm workers were especially anxious about the matter because of the need of their help on the farms. To all these visitors the board gave assurance that an effort would be made to secure furloughs for them in order to make the farm work possible. The effort to secure these furloughs will be inaugurated as speedily as possible after the men are in the service, for the board fully realizes the importance of having the work on the farms given its needed attention during the months that are immediately at hand.

"I especially admired the spirit of one young married man," said Mr. Weir. "He came before the board and mentioned that he had seen his name published as likely to be sent into the service; that he had talked the matter over promptly with his wife and he was ready and anxious to go. 'My wife and I agreed,' said this young man, 'that the time had come for us both to do the best we can for our country. It is my wife's intention to go to the home of her parents to remain during the period of the war. I am ready now to go into the service and to give the best that is in me in whatever department I am assigned.' There is no pulling back on this young man's part, no offering of excuses, no suggestion about deferred classification. He and his wife realize the need. They know that it is really but a question of time until he must enter the service and so they realize that it is better for both the government and themselves that he should begin that army service now."

A telegram was received by the board Friday with reference to the issuance of certificates of enlistment for men who were registered last Wednesday It can now be stated that the department will not approve the induction of any of these men into the service at this time.

This order means that the men who registered on Wednesday cannot now enlist in any department of the army service. They must take the regular course of filling our their questionaires, taking the physical examination and receiving their proper classification. A notice previously published indicates that these men can enlist but the notice was in error. In this connection it can again be stated that the local board would very much like to hear from any men who are in deferred clasification and who are willing to waive claim and go with the party of 400 June 24th.

It was indicated from the office of the adjutant general yesterday that some re-classifications are quite likely to occur all over the state. There is a feeling on the part of the authorities that in the original classification a number of men were placed in Class 4 who properly should be in other classes. It has been indicated that all local boards will asked to make a rigorous review of men given defered classification with the expectation that quite a number will then be advanced to Class 1 or 2 The demand for men is so great that something of this kind is necessary.

Mrs. A. J. Hoover and son Earl are spending a few days visiting at the home of Mrs. Mary Lang in Virginia to be with William Lang a while before he leaves for camp. They expect to return to Jacksonville Sunday.

CLARENCE READ FUNERAL SUNDAY

Further Particulars About Death of Former Franklin Resident

Funeral services for Clarence Read will be held from Franklin M. E. church Sunday morning at 11 o'clock in charge of the Rev. W. E. Keenan. Franklin Lodge of Odd Fellows of which Mr. Read was a member will have charge of the services at the grave. Service will be held in Trinity M. E. church, Keokuk, Iowa this afternoon.

According to reports from Keokuk young Read was killed by a Burlington train some time between the hours of 12 o'clock Wednesday night and 6 o'clock Thursday morning. Read left his boarding house about 8 o'clock to go to the river to swim. He did not return to his boarding house and pieces of his body were found strewn along the track by Jimmie Kern, a laborer on the dry dock early Thursday morning as he was going to work. Kern immediately notified the police and the remains were picked up and taken to an undertaking establishment.

According to testimony of the woman who ran the boarding house where Read roomed he was of a nervous disposition. However J. Clarence Ferris a restaurant keeper where Read got a bottle of pop and an ice cream cone at his place about 11 o'clock Wednesday night said he seemed in his usual spirits when there.

According to physicians who examined the remains, Read must have been sitting down when he was first struck. His skull was crushed and all of the brain knocked out.

Miss Ruth Taylor to Wed Virginia Man.

Miss Ruth Taylor of West College avenue, entertained a few friends Friday afternoon at a knitting party in honor of her friend, Miss Lillian Winter of Deborah, Iowa. During the afternoon Miss Taylor's engagement to Mr. Fred Savage of Virginia was announced in a very novel manner. An "Extra" was brought in and the following news bulletin read:

Extra 4 o'clock Bulletin.

Astounding News from the front.

Excitement Over New Victory Intense.

Associated Press Bulletin—All the country is aroused by the latest news which has come flashing across the wires. Victory and happiness are promised for all by this most recent engagement in our lines. A more detailed account of the drive folows.

Captain Dan Cupid led his forces "over the top" from Lover's Lane Trench out into Everyman's land. His forces were not heavily equipped, but were armed only with love pointed arrows. These however were used without mercy against their helpless victims and great numbers were wounded and taken prisoner. Among the distinguished prisoners were two whose names will be of especial interest to Jacksonville people. When the attack was launched these two seem to have been walking together down Everyman's Land disregarding the arrows that were falling thick around them. They were easily taken prisoner and brought back to Lover's Lane Trench, offering no resistance. After the present unsettled situation is past and the hostilities forever quieted by an allied victory these two prisoners, Miss Ruth Taylor and Mr. Fred D. Savage, will be moved back to the permanent Camp Matrimony where they will remain for life.

FESTIVAL AND FLAG RAISING AT EXETER

Event of Thursday Evening Resulted in Addition of $175 to Red Cross Fund—Interesting News Notes from Winchester and Vicinity.

Winchester, June 7.—A large crowd attended the festival and flag raising at Exeter Thursday evening, many being in attendance from all parts of the county. Receipts amounted to $175 and will go to the Red cross fund.

WILL LEAVE FOR NEW HOME

Rev. and Mrs. E. K. Towle and children leave today for Champaign where they expect to reside in the future. The family came here about three years ago and since then have been prominently identified with the religious, and social life of the city.

Rev. Mr. Towle is prominent in evangelistic work in the Methodist church and has won many friends in this and adjacent cities by his ability and genial manner. Mrs. Towle has been at the head of the junior department of Grace church and her work has been of a kind that is valuable both to the institution and the community.

The children of Rev. and Mrs. Towle also have left their impress on the community. Miss Marie Towle graduated from Illinois Woman's college this year. She had the distinction while a student in art there to be the only student in the United States not in an art school to win one of the Wannamaker cash prizes for meritorious work.

Wilder Towle has been recognized as one of the best basketball players that the high school has ever had and has been identified with Y. M. C. A. work, assisting A. R. Weddell the past year. Miss Dorothy Towle, who also has been a student in the high school won first prize in the declamation contest here and the right to compete in the interscholastic contest at Ashland where she was awarded second prize. It is with regret that a large circle of friends see them depart for a home in another city.

Ripe olives. Douglas.

MATRIMONIAL

Hale-Wilkins.

Mrs. T. J. Adkins of 627 North Main street has just received word from her son Frank M. Hale, who is with Co. C., 21st Inf., San Diego, Calif., that he was married on May 11th to Miss Ethel Wilkins, whose home is in Chicago, Ill. Mr. Hale has been in army service for five years and says he likes it fine. He also sent a picture to his mother of 76 of the soldier boys taken together which she prizes very highly, a fine looking bunch.

COULDN'T SLEEP APPETITE GONE

Nervous and Restless, and Kept Getting Worse, Says Arkansas Lady. Cardui Brought Relief

Marmaduke, Ark.—Mrs. Mary E. Hill, near this place, writes: "I was in a very wretched state of health. I would be in bed two or three weeks at a time . . . and have fainting spells. I was so weak and, Oh! how my back hurt me. I was so nervous and restless I couldn't sleep—didn't have any appetite and kept getting worse. Every one was so uneasy about me.

I cannot exactly describe two awful spells I had . . . I had a shortness of breath and would smother at night. I couldn't move or cry out. I felt like I would die. My limbs would get numb and feel very uncomfortable. We used many medicines, and I didn't get better.

I had read of Cardui in the Birthday Almanac and had often heard that it was a good medicine. I began to take it according to directions and began to improve. I soon was strong and able to do my work. I cannot praise Cardui enough. I have every reason to believe that it saved my life."

Tested and proven in every way by many women, over a period of more than 40 years, Cardui has attained its present high standing and popularity because of the satisfactory results secured from its use.

If you are weak and run-down, and need a good reliable, tonic medicine, try Cardui. All druggists.—Adv.

New York Takes Three Straight.

St. Louis. June 7.—St. Louis could not touch Russell when hits meant runs and New York made it three straight by shutting out the locals today by a score of 1 to 0. The visitors got their run in the sixth when Gilhooley singled, went to second on an out and scored on Pratt's two base hit. Ban Johnson, president of the league attended the game.

JOY CITY FOR AMERICAN SOLDIERS

Many Amusements Provided there For U. S. Soldiers on Leave.

Paris, June 7.—Somewhere in the South of France is a town which is popularly known among the Allied armies as the "Sammies Joy City."

Before the Americans came into the war the Joy City was a thriving little French town, whose chief industry was that of the wine trade. It was commandeered six months ago with the sanction of the French authorities by the United States war department. Now it is still thriving, tho in a different way.

In little more than six months' time a city has sprung up which is destined to be the playground of an army. The United States does not propose to allow her soldiers to incur temptation while on leave, and it was for the purpose of preventing this that the Joy City was built.

When an American soldier gets his leave he is paid off and, if he has no relations or no definite scheme for amusing hisself during his vacation, he is sent to the Joy City, where ample means of recreation are to his hand.

Here he can find his "home town," as he would call it, brought right up to him. If he is a New Yorker, Philadelphian, Chicagoan, or Bostonian, if he hails from Denver, St. Paul, San Francisco, Atlanta or in fact, from any of the larger cities of the United States he will find in the Joy City all the old pleasures of town life in which he was formerly wont to indulge.

The fox-trotting cabarets, for instance, of which the New Yorker is so fond, are present in the Joy City in all their gay splendor—all, that is, with the exception of alcoholic liquor, for that is strictly forbidden.

Neither is the feminine presence forgotten. For in the cabarets the soldiers have partners for their dances in the nurses and charming American girl helpers, who have been sent there for that purpose. And the wholesome atmosphere of the Y. M. C. A. prevades all.

For those who do not care to dance or to ride on a switch-back or throw balls at the African dodger, there are more dignified amusements. Joy City has a large library stocked with all the latest books.

KAISER WILL PAY THE FINE NEXT TIME

London, June 7.—Vice Admiral Sir Roger Keyes, who directed the operations of the British naval forces which made such a thrilling attack upon the German submarine bases at Zeebrugge and Ostend, recently asked a friend of his who had lived in Berlin before the war to tell him his best "German story." This was it:

A certain young Englishman was motoring thru Prussia with his own car a year or two before thewar. Unaware that the middle portal of the Brandenburg Gate in Berlin was reserved for the exclusive use of the Kaiser, the young fellow joy-rode thru it, only to be held up on the other side by a policeman.

"You are fined two hundred marks for using the Kaiser's driveway," he said. The Englishman took a fresh tug at his cigar, reached for his wallet, handed the policeman four hundred marks, and started to drive away.

"I said two hundred, not four," explained the policeman.

"Yes," retorted the motorist, "but I'm coming back!"

Old Folks Saved From Suffering

Mrs. Mary A. Dean, Taunton, Mass., in her 87th year, says. "I thought I was beyond the reach of medicine, but Foley Kidney Pills have proven most beneficial in my case."

Mrs. Sam A. Hoover, High Point, N. C., writes: "My kidney trouble was worse at night and I had to get up from five to seven times. Now I do not have to get up at night, and consider myself in a truly normal condition, which I attribute to Foley Kidney Pills, as I have taken nothing else."

Mrs. M. A. Bridges, Robinson, Miss. says: "I suffered from kidney ailments for two years. I commenced taking Foley Kidney Pills ten months ago, and though I am 61 years of age, I feel like a 16-year-old girl."

Foley Kidney Pills are tonic, strengthening and up-building, and restore normal action to the kidneys and to a disordered and painful bladder. They act quickly and contain no dangerous or harmful drugs. J. A. Obermeyer, City Drug Store.

A Purposeful Formula

Senreco's formula is not "just a little of this and a little of that."

It was devised with a definite object in view.

The object was to produce a tooth paste possessing medicinal as well as cleansing properties—a real cleanser that could be depended upon to remove tartar and keep mouth and gums healthy.

The ideal defined, our laboratories set about to determine the proper combination to produce it. Senreco is the result. It has been tried, tested and pronounced good by hundreds of the profession. Try a tube. A single tube will prove every claim. Will show why thousands today use and demand Senreco—and are satisfied with nothing less. All druggists and toilet counters. Large 2 oz. tube—25c.

BRADSTREET'S REPORT

NEW YORK, June 7.—Bradstreet's tomorrow will say:

"Government domination of a myriad of lines of industry and trade and almost unanimously favorable crop reports are the two features of the situation. Government commandeering of iron and steel, wool and heavy leather are accomplished facts and further extension of its control of manufactured textiles and of food supplies and prices of same seems inevitable. Increasing difficulty attends the obtaining of supplies of goods or raw materials for civilian use and largely increased earning capacity of women puts added strain on supplies of goods suitable for the latter. Weekly bank clearings $6,443,088,000."

ADVANCE PRICE FOLLOWS CORN FLURRY

CHICAGO, June 7.—Shorts in corn became flurried today because the market was almost bare of offerings. Advanced prices followed. The close was unsettled 1½@2¢ net higher with July $1.37¼ to $1.37⅜ and August $1.38. Oats finished unchanged to ⅝¢ lower, and provisions with gains of 12@40¢.

Bulges in the corn market were preceded by liberal declines on improved weather conditions in Iowa. Sentiment changed later, however, on advices that the crop movement would be hampered. At the close fresh notice of peace gossip acted as a weight on values.

Correct anticipation that the government crop report would prove bearish weakened oats. Strength of hog prices gave an upward slant to provisions.

CIRCUIT COURT NEWS.

Friday was a comparatively quiet day in the Morgan county circuit court. In the afternoon Judge Jones adjourned court until Monday. The suit of John E. Pires and Samuel Nunes as executors of the estate of William Nunes vs. American Insurance Co., was settled by agreement, the company making a payment which the executors deemed satisfactory.

The suit of E. F. Johnson vs Frank Whittaker, taken to the circuit court on appeal from a justice court, was also settled by agreement.

MORGAN COUNTY INSTITUTE CLOSES

Teachers of County Have Most Profitable Week — Addresses Were of High Order—Resolution Adopted.

The annual Morgan County Teachers' Institute which has been held in the David Prince Gymnasium during the past week closed Friday afternoon. County Superintendent of Schools Vasconcellos secured excellent talent for this year's instruction and the 245 teachers enrolled were very much pleased by the talks and suggestions given.

Dr. Shawkey who is superintendent of public instruction off West Virginia, and Dr. Harrop who holds the chair of education and physilogy in Albion College, Albion, Mich. deserve a great deal of praise for the instruction given during the various sessions. Each subject was presented in a very interesting manner.

At the closing session Friday afternoon Supt. Vasconcellos expresed his thaks to the teachers of the County for their hearty co-operation during not only the institute but also for the past year's work. Following Mr. Vasconcellos' talk Miss Mabel Withee read the following resolutions in behalf of the Morgan County teachers which were adopted:

"Whereas Our County Superintendant has arranged our Institute immediately after the close of the various schools that all teachers might find it convenient to attend, therefore,

Be it resolved;

'First that we, the teachers of Morgan County, desire to express to Mr. Vasconcellos our deep appreciation of his consideration for the teachers at all times also of his efforts in making the institute a success by furnishing instructors who are able, helpful and inspiring.

"Second, We wish to thank the Board of Education for the use of the David Prince School.

"Third, We especially wish to acknowledge our gratitude to Dr. Harrop and Dr. Shawkey for the altruistic spirit and practical suggestions which they have brought us.

"Fourth, We further acknowledge our indebtedness to Miss Hammond and Miss Wardhaugh for the music provided. The special numbers furnished by Illinois College Conservatory and Department of Music and Expression of Illinois Woman's College have added much to the enjayment of all.

"We feel that the entire Institute has been an inspiration to the teachers of the County.

WATER SUPPLY AGAIN ROTARY CLUB THEME

Discussion Showed Members all Favoring the Proposition—Judge Jones Guest of Club.

At the weekly luncheon of the Rotary club at the Pacific hotel Friday the water supply of Jacksonville was again the theme for discussion. The subject was presented by Dr. J. R. Harker, chairman of the joint committee of city council and citizens on water supply and the subject was handled in an entirely informal way. Dr. Harker made only a brief statement and suggested that the best way to discuss the question was for those present to ask questions or to state any objections they might have or have heard to the proposed plan of securing the supply. A number of questions were asked and answered in a satisfactory way, the discussion developing the fact that every man present was heartily in favor of the proposal to issue bonds for the building of the reservoir and filtration plant as suggested.

Judge Norman L. Jones was the guest of the club and when asked to speak declared that he knew nothing about the special terms of the proposed bond issue but that there is no question as to the need of an increased water supply for this city. Judge Jones took the position that it would not be proper for a non-resident to discuss the terms of the bond issue proposal, but felt it entirely appropriate, but felt it engreat need for water, since that is a matter of common knowledge outside the city. The judge then in a very interesting way told of the method of financing water supply propositions which a number of other cities have adopted.

In a brief business session the directors were re-elected for the ensuing year and later they will choose the officers. The directors thus renamed are F. J. Waddell, W. L. Fay, F. J. Heisl, L. T. Potter, F. J. Andrews, T. M. Tomlinson, Frank Byrns, H. M. Capps and E. H. Gray.

Major Russell and Corporals Johnson and Overlander from the adjutant general's office were guests of the club.

THIS IS "COAL WEEK"

Heed the Warning to Buy and Store Coal Now, or be Cold Next Winter.

This is "coal week."

No citizen of Illinois should forget that fact. Nor should any forget that it is a week of the utmost importance to the nation and to the people themselves.

The government warns all that they must order their coal now or be almost certain they will go cold next winter.

This warning is no bugaboo to frighten the timid. It is no scheme to help mine operators. It is an absolutely certain and scientific forecast of what must happen, if the warning is not heeded.

None will be able to plead ignorance of the warning. The fuel administration—national and state—the state council of defense and all its county committees, the organizations of the Red Cross, the Liberty Loan committee and the Four-Minute men have all been spreading it through every town and hamlet of the state for weeks. Anyone who has failed to hear it is one who doesn't know what is going on in his own community and who is not watchful of the necessities of his country.

So if you haven't bought your coal, buy it this week. Pay for it this week, if you can—your dealer cannot carry the load for all his customers. Then keep after that dealer until the coal is delivered and in the bins.

Coal put in the bins this summer is the only coal anyone can count upon next winter.

ORGANIZE TO AID CONSTITUTIONAL CONVENTION

At a meeting held in Springfield by prominent men representing all political parties steps were taken to organize for the purpose of impressing upon the voters of Illinois the necessity of a new constitution. Horace H. Bancroft was selected secretary of the organization and headquarters will be opened in Springfield at once and later a branch will be opened in Chicago.

Judge Carter, chairman of the campaign committee presided and among the prominent men present were Former Governor Edward F. Dunne, Senator James Hamilton Lewis, Roger C. Sullivan, Chicago; B. F. Harris, Champaign; Clarence S. Darrow, Charles S. Cutting and Justice James H. Cartwright of the Illinois supreme court. It is purposed to wage an active campaign to bring the matter before voters in all parts of the state.

Miss Hazel Claus was in Murrayville yesterday visiting Miss Mildred Wright and attending commencement exercises.

DEMAND FOR NURSES IS VERY URGENT

Special Campaign Under Way to Enlist Them in Red Cross Work—25,000 Needed for Immediate Service.

So urgent is the need for Red Cross nurses that a special campaign is now in progress whereby it is hoped that 25,000 nurses may be registered for war service work. The campaign was originally planned to begin the week of June 10 but the urgent need was advanced for a week and so is now in progress. The quota for the central division of the country, which includes this part of Illinois, is 2,946. Every registered nurse is urgently requested to enroll either for home or foreign service.

It can be stated in this connection that the unpleasant fact exists that if there are not enough enlistments of nurses for the work that a draft order may be made. A special committee of workers is directing the campaign in this district, the committee including Miss Lucy Mount, Misses Maude Pyman, Mattie Cogle and Mabel Reid. It is the work of this committee to personally interview every nurse in the county and present the cause. Twelve nurses from Morgan county are already in active service in either the army or the navy so that it can be safely said that this cannot be listed as a slacker county. However there are other nurses here who will undoubtedly enter the service as soon as they fully understand the great need, and the committee will doubtless soon have a list of names available.

The campaign in this county was organized after M. F. Dunlap chairman of the Morgan county chapter of the Red Cross, had received a communication on the subject asking that the work be undertaken, Mr. Dunlap consulted with Miss Mount who had large experience in the organization of the nurses service in three Illinois districts and the committee campaign was then outlined. The twelve nurses already in the service are as follows:

Miss Velma Davies, Camp Beauregard, Alexandria La. army base hospital.

Miss Ruth Stadler, Camp Beauregard, Alexandria, La., army base hospital.

Miss Ella Walker Fort McPherson, Atlanta, Ga., army base hospital.

Miss Edna Cook, Fort Oglethorpe, Ga., army base hospital.

Miss Helen Carter, Camp Custer, Battle Creek, Mich. army base hospital.

Miss Garnet Chapman, Hampton Roads, Norfolk, Va. naval hospital.

Miss Sadie Guild, Great Lakes, Ill., naval hospital.

Miss Gunhild Johnson, Camp Logan, Houston, Tex. army base hospital.

Miss Emma Bacon, Camp Hancock, Augusta, Ga., public health zone.

Miss Augusta Stege, Camp Doniphon, Fort Sill, Okla., army base hospital.

Miss Grace Boyer, Washington, D. C., United States naval hospital.

Miss Adelle Posten, chief nurse, psychopatic unit France.

The Misses Davies, Stadler, Walker, Cook Chapman, Boyer and Posten are graduates of Passavant hospital Training school, Jacksonville.

The urgency of the situation cannot be better presented than by quoting the following paragraphs from a bulletin recently issued by the American Red Cross:

The Imperative Call.

Surgeon General Gorgas, United States Army, must have 25,000 nurses for the Army alone. It is the duty of the American Red Cross to supply them.

He must have 5009 of these nurses by June 1, 1918.

The needs of the Navy must also be met.

Do You Realize—

That the well-being of the fighting army depends upon the size and efficiency of the nursing army?

That in this call General Gorgas seeks to conserve the health and lives of our boys—the health and life of your own boy?

The Nurse—Must Be the Volunteer.

She—Is the only woman who will share the hardships, the dangers and the privations at the front.

She—It is who must give all, even her life if necessary, for your boy.

She—It is who must stand in the place of mother, wife or sister when he is burning with fever or shattered by shell.

She—It is who must be you to him at his sick-bed and at his death-bed.

She—It is who will catch the last whispered message to you.

What Is Your Part?

To release for service in the army and navy nurse corps as a pressing miltary necessity, every nurse whose services are not imperatively needed at home.

This miltary necessity devolves directly upon every person employing nurses where the dictates of life or death or the utmost physical necessity do not demand them.

If you are employing a trained nurse largely as a companion, it is your patriotic duty to release her.

WILL GIVE TWO MONTHS TO ARMY SERVICE

Rev. Myron L. Pontius will give two months service to army church work this year. Mr. Pontius already had offered his services for one month to the committee which would occupy his full vacation period. Sunday the congregation of the Central Christian church voted to allow the pastor an extra month. This Mr. Pontius also will give to army work and will leave July 1st, and give his services during July and August. He expects to spend a part of the time in work at Newport News.

FAVORITE LODGE ELECTED OFFICERS

George W. Gerlach was chosen Chancellor Commander of Favorite Lodge No. 376 Knights of Pythias at the semi-annual election held Thursday evening. The other officers are.

Vice Chancellor—B. Lee Stice.
Prelate—Charles B. Padgett.
Master of Work—Walter E. Hall.
Master at Arms—J. E. Brasfield.
Inner Guard—J. C. Winterbottom.
Outer Guard—O. H. Buhrman.
Grand representative for two years—L. B. Turner.

A communication has been received from Grand Chancellor Hayes relative to the holding of memorial exercises. The Grand Chancellor designates the week of June 9 to 16 as the week for these exercises.

Favorite lodge appointed a committee consisting of J. F. Claus, chairman; Charles Hataichak and Oran H. Cook to meet with a like committee from Jacksonville lodge No. 15. It is probable that the lodges will attend services at some church and then visit the cemeteries and decorate the graves of departed members.

ORGANIZES UNDER THE STATE LAW

Greene County Bank Changes From National to State Institution—News Notes.

(Special to the Journal.)

Carrollton, June 7.—The Greene Couty National Bank which has been in existence since July 11, 1878, today opened its doors as The Greene County State Bank, with over $1,100,000 deposits. It is continued with the same officers.

The total enrollment on June 5th of boys reaching 21 years of age in this county was 147. From Greene County 343 boys have gone to war thru the draft and nearly 100 have enlisted.

The late Lieut. A. C. Edwards who was killed in France carried $20,000 insurance on his life.

Major Charles Wilson Russell and two aides were here Thursday looking up disloyalty cases. They found little doing in that line here.
